**Project Network Security Project # 17401**

*Project Description*

This program funds an ongoing effort to maintain and improve the security posture of the City's computer network and the physical security of City-owned facilities, including security assessments and consulting. The goal of the program is to ensure the City's devices (desktop PCs, laptops, smartphones, tablets, etc.) and network servers are secure. Progress is measured by accessibility of City services by citizens, minimal downtime, and increased ability to prevent and mitigate cyberattacks. Funding in 2018 will provide for improved detection of network attacks and ensure that outdated security technology is replaced with more current technology.

**Project Property Assessment System Project # 10043**

*Project Description*

This project funds the purchase of a new computer system for the administration of property assessment functions, specifically property data management, sales analysis, and property valuation. The goal of the project is to replace an obsolete system from the mid-1990's with a modern Computer-Aided-Mass-Appraisal (CAMA) system that combines all assessment functions into one integrated program. Progress will be measured by efficiencies within and to the satisfaction of the Assessor's Office. Funding for the system was first included in the 2008 CIP, the anticipated go-live date for the system is undetermined.

**Project Purchased Software Enhancements Project # 17403**

*Project Description*

This program funds upgrades and enhancements of existing vendor-supplied software and applications supporting City operations and the purchase of additional customer licenses when necessary. The goal of this program is to have current software functionality for City staff to meet the needs of residents. Progress will be measured by feedback from City staff and residents.

**Project Residential Internet Access Assistance Project # 10399**

*Project Description*

This project provides funding to close the "Digital Divide" in four low-income neighborhoods: Allied Drive, Darbo/Worthington, Brentwood, and Kennedy Heights. The goal of the project is to provide digital literacy training and personal computers to residents as part of the Digital Divide Pilot Project, known as Connecting Madison. Progress will be measured by the number of residents trained and computers deployed. This project is scheduled for completion in 2018 and funding will cover the following support services through a non-profit organization: technology education, drop-in support, improvements to computer labs in community centers, PC equipment provision, preparation, and deployment, and equipment and support related to resident turnover.

**Project****Tax System Replacement****Project #****17049***Project Description*

This project funds the purchase of a new computer system for the administration of the City's tax billing and collection processes. The goal of the project is to replace an aging and limited system developed in the mid-1990's with a more stable platform. Progress will be measured by feedback from the Treasurer's Office on the functionality of the system and citizen reaction to changes made in the process or bills. This project has been deferred from 2018 to 2019.
