Dependent Coverage:
 designed to help with final expenses for death of a dependent – employee is the beneficiary for eligible dependent(s)

Units	Coverage	Cost
1 unit	\$10,000, spouse to age 65 and \$5,000, each dependent child to age 21 (age 25 if full-time student in an accredited school)	\$1.75/mo.
2 units	\$20,000, spouse to age 65 and \$10,000, each dependent child to age 21 (age 25 if full-time student in an accredited school)	\$3.50/mo.

Premiums: Premiums are deducted from the first paycheck of the month for current month's coverage. Premiums are deducted after tax.

Annual Update: In July of each year, premiums and insurance amounts are recalculated based on the prior year's gross earnings. Changes are reflected on the first check in July. An employee's Basic Coverage will be based on the employee's highest-earning year.

Accidental Death and Dismemberment: This additional benefit is included in the employee's coverage. The additional benefit is not included in dependent coverage.

Retirement Benefits: An employee who retires before age 65 may maintain the coverage in effect, or as little as Basic coverage, if selected, by requesting billing by the City and paying the premium billed. Bills are sent quarterly for three months' charges.

Example:

Age	Highest Pay Year	Coverage Selected	Total Coverage	Rate per \$1000	Coverage X Rate	Cost for Coverage	Cost for Dependent	Month Total
58	\$55,000	Basic+200%	\$165,000	\$0.43	165 X .43	\$70.95	\$3.50	\$74.45
60	\$55,000	Basic+200%	\$165,000	\$0.57	165 X .57	\$94.05	\$3.50	\$97.55
60	\$55,000	Basic Only	\$ 55,000	\$0.57	55 X .57	\$31.35	\$3.50	\$34.85

Quarterly cost for \$74.45 monthly charge: $\$74.45/\text{month} \times 3 \text{ months} = \223.35

Quarterly cost for \$97.55 monthly charge: $\$97.55/\text{month} \times 3 \text{ months} = \292.65

Quarterly cost for \$34.85 monthly charge: $\$34.85/\text{month} \times 3 \text{ months} = \104.55

Dependent coverage for the employee's spouse may continue to spouse's age 65 and the employee will be billed for a year's premium for the dependent cost. When the spouse reaches age 65, coverage is no longer available and may not be continued. Dependent children are eligible to be covered to age 21 (or age 25 if enrolled as a full-time student at an accredited school).

A retiree who drops all life insurance coverage may not re-enroll.

If an employee retires at or after age 65 (or retires before age 65 and continues life insurance coverage after retirement by paying the premium costs to age 65), coverage for the base amount will continue at no cost beyond age 65, though at reduced dollar amounts:

Age	Percentage of Former Basic Coverage	Amount of Coverage, \$55,000 Example
65	75%	\$41,250
66	50%	\$27,500
67 onward	25%	\$13,750
