An investor should carefully consider the investment objectives, risks, charges and expenses of an investment company before investing. To obtain a prospectus that contains this and other information call 800-967-2046 for a free prospectus. Read it carefully before you invest (or send money). The investment return and principle value of an investment will fluctuate with changes in market conditions so that an investor's shares when redeemed may be worth more or less than the original amount invested. Securities offered through Lincoln Financial Advisors Corp., a broker/dealer.
