

TO ALL MADISON PLUMBERS:

Please see below for an updated schedule of charges for water meter applications which will be effective as of **December 1, 2018**. In accordance with Madison General Ordinance Sec. 35.02 (6)(b)(3), the Madison Sewer Utility has implemented a charge for public sewer use during the interim period prior to the installation of the water meter, which is scheduled to increase as of the date above. This will be collected in addition to the water meter charge. Both the water meter and sewer fees will be based on the size of the meter to be installed. If you have any questions about the sewer charge, please contact the Sewer Utility at 608-266-4751.

The charges are as follows:

Meter Size:	Meter Charge	+	Sewer Charge	=	Total Application Fee
5/8"	\$70.00	+	\$80.00	=	\$150.00
3/4"	\$97.00	+	\$80.00	=	\$177.00
1"	\$136.00	+	\$140.00	=	\$276.00
1½"	\$239.00	+	\$300.00	=	\$539.00
2"	\$370.00	+	\$460.00	=	\$830.00
3"	\$621.00	+	\$845.00	=	\$1,466.00
4"	\$962.00	+	\$1,390.00	=	\$2,352.00
6"	\$1,754.00	+	\$2,750.00	=	\$4,504.00
8"	\$2,695.00	+	\$4,385.00	=	\$7,080.00
10"	\$3,937.00	+	\$6,565.00	=	\$10,502.00
12"	\$5,179.00	+	\$8,745.00	=	\$13,924.00

The above procedure does not alter existing policies regarding (1) replacing services in older buildings, or (2) remodeling and performing other changes to buildings where water will be obtained from a metered supply. It should be noted also that **water used for landscaping, "soaking sod", etc. is not considered for construction and, as a result, is to be metered.**

If you have any questions, we will be pleased to meet with you or to assist you in any way that is possible or permitted to resolve them. Please call 608-266-4647.
