

PUBLIC MEETING

**** Wednesday November 10, 2010 @ 6:00 p.m. ****

LaFollette High School – Room C17 – 702 Pflaum Road

The Madison Water Utility (MWU) is in the process of selecting a site for a new water supply well in Pressure Zone 4 on the Southeast side of Madison. This well is being sited to ensure sufficient quantity and pressure of water for fire protection as well safe drinking water.

We would like to invite you to participate in a public meeting on Wednesday, November 10, 2010 at 6:00 pm at LaFollette High School to update the community on the project and get input on the areas being considered for siting this well.

The adjacent map outlines the area of Pressure Zone 4 and, based on initial screening, the general areas where the MWU is initially looking to site a well.

Please visit the MWU's website for additional information on the project (<http://www.cityofmadison.com/water/plans/>). Select "Pressure Zone 4 Water Supply Augmentation."

If you cannot attend the public meeting, please direct comments or questions to Dennis Cawley, MWU's Project Manager for this project. You can reach him by email at dcawley@madisonwater.org or by phone at (608) 261-9243.

Additionally, a Citizen's Advisory Panel (CAP) has been formed for the project and is working closely with MWU. Please contact Mr. Cawley if you would have interest in attending CAP meetings on this project.

Tom Heikkinen; Water Utility General Manager
cc: Alder Compton, Alder Palm
