Moving Forward

As part of the Inclusive, Innovative and Thriving vision of the City of Madison, we have developed a new compliance system currently in its testing phase. Our goal is to facilitate the process of contract compliance using innovative tools that provide a fast user-friendly experience to our contractors and vendors.

In this new system, you will be able to enter demographic and payment data through a smart interface that will save you time and simplifies the compliance process.

In the process, you will find that you won't have to fill in unnecessary extra columns of rows since you will select the amount of space that you need for your report.

Contract data will already be filled in for you. Your company information will be ready to be selected from a drop down menu.

Emailing demographics and payment information will no longer be necessary since all the information will be stored in this system, and will be readily available for you to review and edit when needed.

Bear in mind that you could still be required to email other information or documents at the discretion of the Contract Compliance Specialists should any additional information be required.

Norman Davis, Director *City-County Building, Room 523* 210 Martin Luther King, Jr. Boulevard Phone: (608) 266-4910 Fax: (608) 266-6514 <u>dcr@cityofmadison.com</u> www.cityofmadison.com/dcr

Types of Reporting

In this manual, you will find the instructions for submitting the two main required reports for contract compliance with the City of Madison.

• Demographic Reporting / Monthly Employment Utilization Report (MEUR):

This form is used to report the demographics, trades, and classification of the workforce in any City funded project. This report is required at least in a monthly basis.

• Payment Reporting / Committed Cost Status Report (CCSR):

This form is used to report payments to subcontractors in a project. This report is required on a monthly basis.

If you don't have any subcontractors in your project, this report is not required as part of your compliance reporting.

The information contained in these reports in used in our department for internal processes. The data in the reports you will be submitting is required by the City in various reports. The accurate and timely submission of these reports in essential for the City of Madison.
