Madison Accreditation

The goal of the City of Madison Child Care Program is to improve and support the quality of early care and education in the City of Madison, and to provide access to quality care to low income families. Child Care Specialists, and Consultants spend many hours observing programs to see that they meet high standards of quality in the following areas:

- The activities and equipment offered to children
- Interactions between teachers and children, including the way staff teaches, talks to, and nurtures children
- The environment for children

Madison Accreditation Standards ensure families and child care programs work together in creating high quality care and education for children.

The Accreditation and Child Care Tuition Assistance Programs are designed to promote the optimal development of the child and to help strengthen families. Research demonstrates that quality programs have positive effects on children's cognitive and social development, health, and school success.

Centers and child care providers are justifiably proud when they earn City of Madison accreditation.

The Child Care Specialists offer training, assistance, and support to programs to help them meet higher standards of quality care.

Accredited child care centers are eligible for small grants to help them meet and maintain Madison Accreditation Standards.
