Design Funding: Local (City of Madison)

Construction Funding: 60% Federal, 40% Local funds and assessments (City of Madison)

Mineral Point Road (MPR) from USH 12 (Beltline) to S. High Point Road (HPR) is proposed to be reconstructed in 2026. The project is anticipated to include the pavement replacement and a significant realignment of the MPR/HPR intersection. A 12' by 6' storm sewer box culvert is proposed from the pond in the SE quadrant of MPR/Commerce intersection, under the Beltline to the Greenway on HPR, 500 feet north of MPR. The Box will be designed for the full length, but is intended to only be constructed within the roadway reconstruction limits. Lane configuration/cross section alternative analysis will be explored during the preliminary design phase of the project. Street lighting, Traffic Signals, Local Storm Sewer will be included in the design. The sidewalk on the north side of the roadway is being expanded into a multi-use path as part of the Bus Rapid Transit project in 2024, and that work will not be included in the contract. There may be geometric changes on the path west of Tree Lane that will require reconstruction. The Plans, Specifications and Estimate (PSE) package is due to WisDOT on August 1, 2025.

The City was awarded a Highway Safety Improvement Project (HSIP) for the HPR/MPR intersection and those improvements will be designed by the consultant and part of this PSE package. The diagram attached to the HSIP application is provided as an attachment to this RFP for reference.

The project will require extensive traffic control during construction. A Transportation Project Plat will be completed for acquiring right of way and grading easements if needed depending upon design alternatives. The project is proposed to be funded by Surface Transportation Block

Grant (STBG) & HSIP funds and will be let through the Wisconsin Department of Transportation (WisDOT) Local Program.

K. SPECIAL REQUIREMENTS FOR DESIGN

(1) STREET GRADES. The CONTRACTOR shall provide the CITY a plan and profile sheet showing all existing and proposed driveway slopes. It is the policy of the CITY to reduce the slope of steep driveways where possible. The CONTRACTOR shall not increase the slope of any residential driveway apron with an existing grade under 12% over 12% and shall not increase the slope of any residential driveway apron with an existing grade over 12% above the existing grade without the consent of the CITY. The CONTRACTOR shall not increase the slope of any commercial driveway apron with an existing grade under 8% over 8% and shall not increase the slope of any commercial driveway apron with an existing grade over 8% above the existing grade without the consent of the CITY. The grade of the top of curb shall not be above the sidewalk grade without the consent of the CITY. The CONTRACTOR shall not through the conversion to an urban section, adversely affect the drainage of abutting property. The CONTRACTOR shall show on the plans, ditching or inlets behind the curb where drainage cannot be provided over the curbs. The CONTRACTOR shall anticipate that the curb grades will differ from one side of the street to the other, that one typical section will not work throughout the project, and that several iterations are required in order to determine the best design. The CONTRACTOR shall design all curb grades to 0.5% minimum slope. The CONTRACTOR shall provide, in the plan, profiles for all intersecting streets and

shall provide the CITY with sufficient information to check the drainage at intersections. Grades at intersections shall be provided at the beginning, middle and end of radius. Grades shall also be provided on the side street as required. Grades and slopes shall be provided to the CITY at each intersection for the purpose of checking the design per the attached exhibit B. Contractor shall design and provide all necessary details for ADA compliant curb ramps within the project limits. Curb ramp designs shall provide some allowance for construction tolerances to ensure ADA compliance following construction. Cross Sections shall be provided at 25 ft. increments. The CONTRACTOR shall review the tree inventory document provided by City Forestry and accommodate existing trees during design.

(2) PEDESTRIAN AND BIKE. The CONTRACTOR shall provide for the movement of pedestrians and bicycles on all streets and the alternatives shall be evaluated based partially on the ability of the alternative to meet the needs of pedestrians and cyclists. A separated facility for pedestrians and cyclists is preferred. A new multi-use path is being built in 2023/24 on the north side of the roadway in this segment. A full reconstruct will not be required for this path, but it is anticipated that west of Tree Lane may require some geometric changes and require reconstruction.

(3) TRAFFIC CONTROL. The CONTRACTOR shall prepare a traffic control plan that maintains at least two lanes of traffic in each direction through the construction zone and provides left turn lanes where possible and accommodates pedestrians, bicyclists and transit.

(4) TRAFFIC SIGNALS DESIGN. The CONTRACTOR will design traffic signal conduit, including signal interconnect conduit, signal pole, signal handhole, and loop detector locations and provide draft set to the CITY (for both Temporary during construction signals and final permanent proposed signals). The CONTRACTOR shall prepare final plans, develop quantities, prepare specifications, prepare details, and items necessary for complete plans and specifications. The MANUAL details and specs for the traffic signals are not used in the CITY. The CITY anticipates that the MPR/HPR Signal will be completely replaced and the MPR/Beltline Signal will be partially replaced. The CITY will provide example plan details and specifications from other recent similar projects which should help guide the CONTRACTOR in preparing the plans and specs. The CONTRACTOR shall provide plans, specs, and quantities for required removal of existing traffic signal bases. The final signal plans shall be stamped by the CONTRACTOR as the CITY is not providing signal design.

(5) STREET LIGHTING DESIGN. The CONTRACTOR will design street lighting conduit, light pole locations, handhole locations, and controller locations and will provide a draft set to the CITY (for both Temporary during construction lighting and

Final permanent proposed lighting). The CONTRACTOR shall prepare final plans. The CONTRACTOR will develop quantities, prepare specifications and prepare details. The CONTRACTOR shall provide plans, specs, and quantities for required removal of existing light bases. The final lighting plans shall be stamped by the CONTRACTOR as the CITY is not providing lighting design

(6) FIBER OPTIC COMMUNICATIONS DESIGN. The CONTRACTOR will design fiber conduit, including handholes, splices, and expansion loops and provide draft set to the CITY (for final proposed fiber and connections to existing fiber). The CONTRACTOR shall prepare final plans, develop quantities, prepare specifications, prepare details, and items necessary for complete plans and specifications. The MANUAL details and specs for fiber optic communications are not used in the CITY. The CITY anticipates that new fiber be installed between High Point Rd and Junction Rd as well as upgrade an existing separate traffic signal lateral. The CITY will provide example plan details and specifications from other recent similar projects which should help guide the CONTRACTOR in preparing the plans and specs. The final fiber optic communications plans shall be stamped by the CONTRACTOR as the CITY is not providing fiber design.

(7) STORM SEWER DESIGN. The CONTRACTOR shall prepare all storm sewer designs necessary to adequately drain this project under the guidance of the City of Madison. The City of Madison shall provide guidance and limited initial layout suggestions in the form of redline documents and shall review the design and provide subsequent redline documents. The final plan shall be stamped by the CONTRACTOR as the City of Madison is providing guidance not design.

The CONTRACTOR shall complete the design details and prepare final plans, develop quantities, prepare specifications, prepare details, and any other items necessary for complete plans and specifications. The details and specs of the MANUAL may not apply. The CITY will provide example plan details and specifications from other recent similar projects which should help guide the CONTRACTOR in preparing the plans and specs. The CONTRACTOR shall provide plans, specs, and quantities for required removals of unused pipes if any.

The CONTRACTOR shall provide the CITY with an existing structure survey which is to include information on invert elevations on all pipes within the structure, a visual inspection on the structural condition of the structure, a measurement of the available adjustment, and a floor elevation for the structure. The CONTRACTOR shall provide the CITY with a proposed structure inventory to include depth of structure, invert elevations of all pipes at the structure and a comment on the physical feasibility of construction of such a structure. All structures that cannot comply with the City of Madison standard specifications for a precast shall be required to be poured-in-place and shall be called out to be poured in place. Precast structures shall only be allowed on the job at the time of

construction after final elevations have been determined, ULO's have been completed, reviewed and approval of the Construction Engineer is given. All storm sewer pipes and structures including those to be removed or adjusted shall be given a pipe or structure number which shall be listed adjacent to the stationing in the miscellaneous quantities table. The structure or pipe number shall also be shown adjacent to the appropriate structure or pipe both in the plan and profile views.

The CONTRACTOR shall provide a storm sewer design that considers adjacent drainage areas, future drainage areas, and allowable discharge points. The storm design deliverables shall also include all design calculations, design reports, modeling files and related support files that were used to size and design the storm sewer system, which may include any necessary stormwater quality devices or treatment, as applicable. The CITY shall assist the CONTRACTOR in delineating the drainage areas and determining future land use. The CONTRACTOR shall investigate potential utility conflicts for storm sewer replacements. All surveying and soil borings described in previous sections must be included for this potential storm sewer route. Storm sewer designs shall be completed in accordance with the City of Madison Ordinances, Chapter 37, and shall include, but not be limited to all necessary TSS, detention requirements, and sizing requirements.

All storm sewer shall be designed to a minimum of the 10-year design event based on the NOAA Atlas 14, MSE4 NRCS Rainfall Distribution; any storm sewer that serves enclosed depressions shall be sized to the 100-year rainfall event. Where there are culvert crossings or greenway crossings the crossing shall be required to safely pass the 100-year storm event. The CITY has recently completed the Pheasant Branch Watershed Study in this area. Proposed recommendations for the regional storm sewer sizing and general configuration can be found in the report, which is available on the CITY'S website. The regional storm sewer is estimated to be a 6ftx12ft box culvert. All box culvert design and construction shall follow the City of Madison Standard Specifications for Public Works Construction. Local storm sewer design is not included in this report. An XP SWMM model is available for use to assist with design. This is a high level model and should be used as a tool. Additional modeling work and design is expected. The CONTRACTOR shall provide design for the entire regional 6ftx12ft storm sewer (noted in the Pheasant Branch Report as the Target Area Relief Sewer) from the existing pond at the SE quadrant of the intersection of Commerce Drive and Mineral Point Rd to the outlet in the greenway on S. High Point Rd, to allow for future construction. This will entail investigation into open cut or boring for installation of pipe across the beltline bridge and or ramps, including estimates of costs and draft specification for each method. Areas outside of the project limits shall be designed to a minimum of 90% drawings to ensure the design will be able to be completed and constructed when the final phases are constructed in the future.

The CONTRACTOR shall be responsible for all design questions and clarifications

during bidding and shall be responsible for redesigns during construction and during the ULO / utility exploration. The CITY shall review precast approvals/shop drawings to verify submittals meet the CITY'S design criteria however the CONTRACTOR shall be responsible to verify the drawings match the design that is proposed.

A. The following language applies to all contractors employing fifteen (15) or more employees (MGO 39.02(9)(c):

The Contractor agrees that, within thirty (30) days after the effective date of this Contract, Contractor will provide to the City of Madison Department of Civil Rights (the "Department"), certain workforce utilization statistics, using a form provided by the City.

If the Contract is still in effect, or if the City enters into a new Agreement with the Contractor, within one year after the date on which the form was required to be provided, the Contractor will provide updated workforce information using a second form, also to be furnished by the City. The second form will be submitted to the Department no later than one year after the date on which the first form was required to be provided.

The Contractor further agrees that, for at least twelve (12) months after the effective date of this Contract, it will notify the Department of each of its job openings at facilities in Dane County for which applicants not already employees of the Contractor are to be considered. The notice will include a job description, classification, qualifications, and application procedures and deadlines, shall be provided to the City by the opening date of advertisement and with sufficient time for the City to notify candidates and make a timely referral. The Contractor agrees to interview and consider candidates referred by the Department, or an organization designated by the Department, if the candidate meets the minimum qualification standards established by the Contractor, and if the referral is timely. A referral is timely if it is received by the Contractor on or before the date stated in the notice.

The Department will determine if a contractor is exempt from the above requirements (Sec. 13.A.) at the time the Request for Exemption in 13.B.(2) is made.

B. Articles of Agreement, Request for Exemption, and Release of Payment:

The "ARTICLES OF AGREEMENT" beginning on the following page, apply to all contractors, unless determined to be exempt under the following table and procedures:

*As determined by the Finance Director

**As determined by the Department of Civil Rights

(1) **Exempt Status:** In this section, "Exempt" means the Contractor is exempt from the Articles of Agreement in section 13.B.(5) of this Contract and from filing an Affirmative Action plan as required by Section IV of the Articles of Agreement. The Department of Civil Rights ("Department") makes the final determination as to whether a contractor is exempt. (2) Request for Exemption – Fewer Than 15 Employees: (MGO 39.02(9)(a)2.) Contractors who believe they are exempt based on number of employees shall submit a Request for Exemption on a form provided by the Department within thirty (30) days of the effective date of this Contract.

(3) Exemption – Annual Aggregate Business: (MGO 39.02(9)(a)c.): The Department will determine, at the time this Contract is presented for signature, if the Contractor is exempt because it will have less than \$50,000 in annual aggregate business with the City for the calendar year in which the contract is in effect. CONTRACTORS WITH 15 OR MORE EMPLOYEES WILL LOSE THIS EXEMPTION AND BECOME SUBJECT TO SEC. 13.B.(5) UPON REACHING \$50,000 OR MORE ANNUAL AGGREGATE BUSINESS WITH THE CITY WITHIN THE CALENDAR YEAR, BEGINNING IN 2019.

The Contractor shall send to each labor union or representative of workers with which it has a collective bargaining Agreement or other Contract or understanding a notice to be provided by the City advising the labor union or workers representative of the Contractor's equal employment opportunity and affirmative action commitments. Such notices shall be posted in conspicuous places available to employees and applicants for employment.

If the City determines that Contractor is not exempt, the Articles of Agreement will apply.

ARTICLE V

Under public works contracts, if a subcontractor is in noncompliance, the City may recover liquidated damages from the prime Contractor in the manner described above. The preceding sentence shall not be construed to prohibit a prime Contractor from recovering the amount of such damage from the noncomplying subcontractor.

ARTICLE VIII

(This Article applies to public works contracts only.)

The Contractor shall include the above provisions of this Contract in every subcontract so that such provisions will be binding upon each subcontractor. The Contractor shall take such action with respect to any subcontractor as necessary to enforce such provisions, including sanctions provided for noncompliance.

ARTICLE IX

CITY OF MADISON

1. General. Throughout this document, "City of Madison," "City" and "Purchasing" shall be synonymous and mean the City of Madison. The words "bid" and "proposal" are synonymous, as are the words "bidder," "proposer" and "contractor." The phrases "request for proposal," "invitation for bids," "request," "invitation," and "solicitation" shall also be synonymous.

As applied to the winning or selected bidder, the words "bid," "proposal," and "contract" are synonymous.

2. Entire Agreement, Order of Precedence. These standard terms and conditions shall apply to any Purchase Order issued as a result of this Request for Bid/Proposal, except where expressly stated otherwise in the RFP or in a written instrument covering this purchase signed by an authorized representative of the City and the Contractor, in a form approved by the City Attorney (a "Separate Contract"). If such a separate contract is executed it shall constitute the entire agreement and no other terms and conditions, whether oral or written, shall be effective or binding unless expressly agreed to in writing by the City.

If a Separate Contract is not executed, these Standard Terms and Conditions, the City's request for proposals, the version of the vendor's bid that was accepted by the City, and the City's Purchase Order (if any) shall constitute a contract and will be the entire agreement.

Order of Precedence: If there is a conflict between this Section A and any terms in the vendor's accepted bid or proposal, this Section A shall control unless the parties expressly agree to another order of precedence, in writing. If there is a conflict between this Section A and a Separate Contract, the terms and conditions of the Separate Contract shall control.

I. TERMS FOR SUBMISSION OF BIDS: The following section applies to the bid/selection process only.

3. This invitation for bids does not commit the City to award a contract, pay any costs incurred in preparation of bids, or to procure or contract for services or equipment. The City may require the bidder to participate in negotiation and to submit such additional price or technical or other revisions to his or her bids as may result from negotiation. The bidder shall be responsible for all costs incurred as part of his or her participation in the pre-award process.

The City reserves the right to accept or reject any or all bids submitted, in whole or in part, and to waive any informalities or technicalities which at the City's discretion are determined to be in the best interests of the City. Further, the City makes no representations that a contract will be awarded to any offeror responding to this request. The City expressly reserves the right to reject any and all bids responding to this invitation without indicating any reasons for such rejections(s).

The City reserves the right to postpone due dates and openings for its own convenience and to withdraw this solicitation at any time without prior notice.

4. Addenda. Changes affecting the specifications will be made by addenda. Changes may include, or result in, a postponement in the bid due date. Bidders are required to complete the Bidder Response Sheet, acknowledging receipt of all parts of the bid, including all addenda.

5. Price Proposal. All bidders are required to identify the proposed manufacturer and model, and to indicate the proposed delivery time on the attached Proposal Form. Failure to do so may cause the bid to be considered not responsive. If desired, the bidder may include product literature and specifications. The price quoted will remain firm throughout each contract period. Any price increase proposed shall be submitted sixty (60) calendar days prior to subsequent contract periods and shall be limited to fully documented cost increases to the bidder which are demonstrated to be industry-wide.

6. Price Inclusion. The price quoted in any bid shall include all items of labor, materials, tools, equipment, and other costs necessary to fully complete the furnishing and delivery of equipment or services pursuant to the specifications attached thereof.
