To: Property Owners and Residents near Spring Harbor Park Boat Launch on Lake Mendota Dr.
RE: Dredging Project, Start of Construction

The City of Madison is planning to begin work on the Spring Harbor boat launch dredging project starting in mid-October. The contract has been awarded to Veit & Company, Inc. The work under the City contract is expected to begin mid-October 2022 with dredging operations ending March 1, 2023. Use of the launch may be limited starting October 17th. An exact start of work date has not been established yet, however, **in preparation for this project if you need to use the launch to remove your boat for winter please plan accordingly.**

During the dredging project, the streets will remain open to traffic, and local and emergency vehicle access will be maintained. Residents should anticipate significant truck traffic during the dredging operation. The launch overflow parking lot located at 5417 Lake Mendota Drive may also be used by the contractor for construction staging purposes.

Project updates and more details on the project construction can be found on the project website:
<https://www.cityofmadison.com/engineering/projects/spring-harbor-dredge>.

If you have any questions regarding this project, including requests for the Contractor's contact information or the assigned City Construction Inspector, please contact the Project Manager, Carissa Wegner at 608-261-9822 or cwegner@cityofmadison.com.

Sincerely,

For:

Kathy Cryan,
Interim Engineering Manager
