PARK DEVELOPMENT PLAN

What is it?

- Dynamic long-term planning document that provides a framework for future development and improvements.
- Establish the general location recommendations for desired amenities and resource protection.
- The identified improvements are often implemented in phases, with each phase requiring further design development and public engagement before construction.

Questions answered by a Park Development Plan: What is going to happen, where-ish, when-ish, and about how much will it cost?

A 10,000 foot view!

PARK DEVELOPMENT PLAN

A Park Development Plan does NOT:

- Specify specific materials or finishes
- Designate exact locations
- Include a planting plan or tree management plan
- Contain construction drawings (which include information like dimensions, colors, products, quality requirements, etc.)

Questions NOT answered by a Park Development Plan: Who is going to build it, when (exact date), and how much will it really cost?
