UPCOMING MEETINGS:

Public Information Meeting

Thursday, Sept. 5, 2013 at 6:00pm

On-site at Lake View Reservoir, 1320 Lake View Avenue

(In case of rain the meeting will be in Room 110 of the County Human Services Building.)

- [Notice sent to residents](#)

PROJECT DESCRIPTION:

Lake View Reservoir (1320 Lake View Avenue) provides water storage and fire protection to a large portion of the Lake View Hill Neighborhood Association. This reservoir is undersized and has reached the end of its useful life. We propose to construct a larger reservoir, as well as utilize the site to improve water storage to the remainder of the city's east side.

Madison Water Utility has requested statements of qualifications for professional engineering design services for the Lakeview Reservoir (Reservoir 113) Two Zone System. Engineering Design Consulting Firms wishing to be considered for this project were required to submit 4 copies of their statement of qualifications per the requirements of the detailed Request for Proposal by August 16th, 2013.

- [Standard Contract](#)

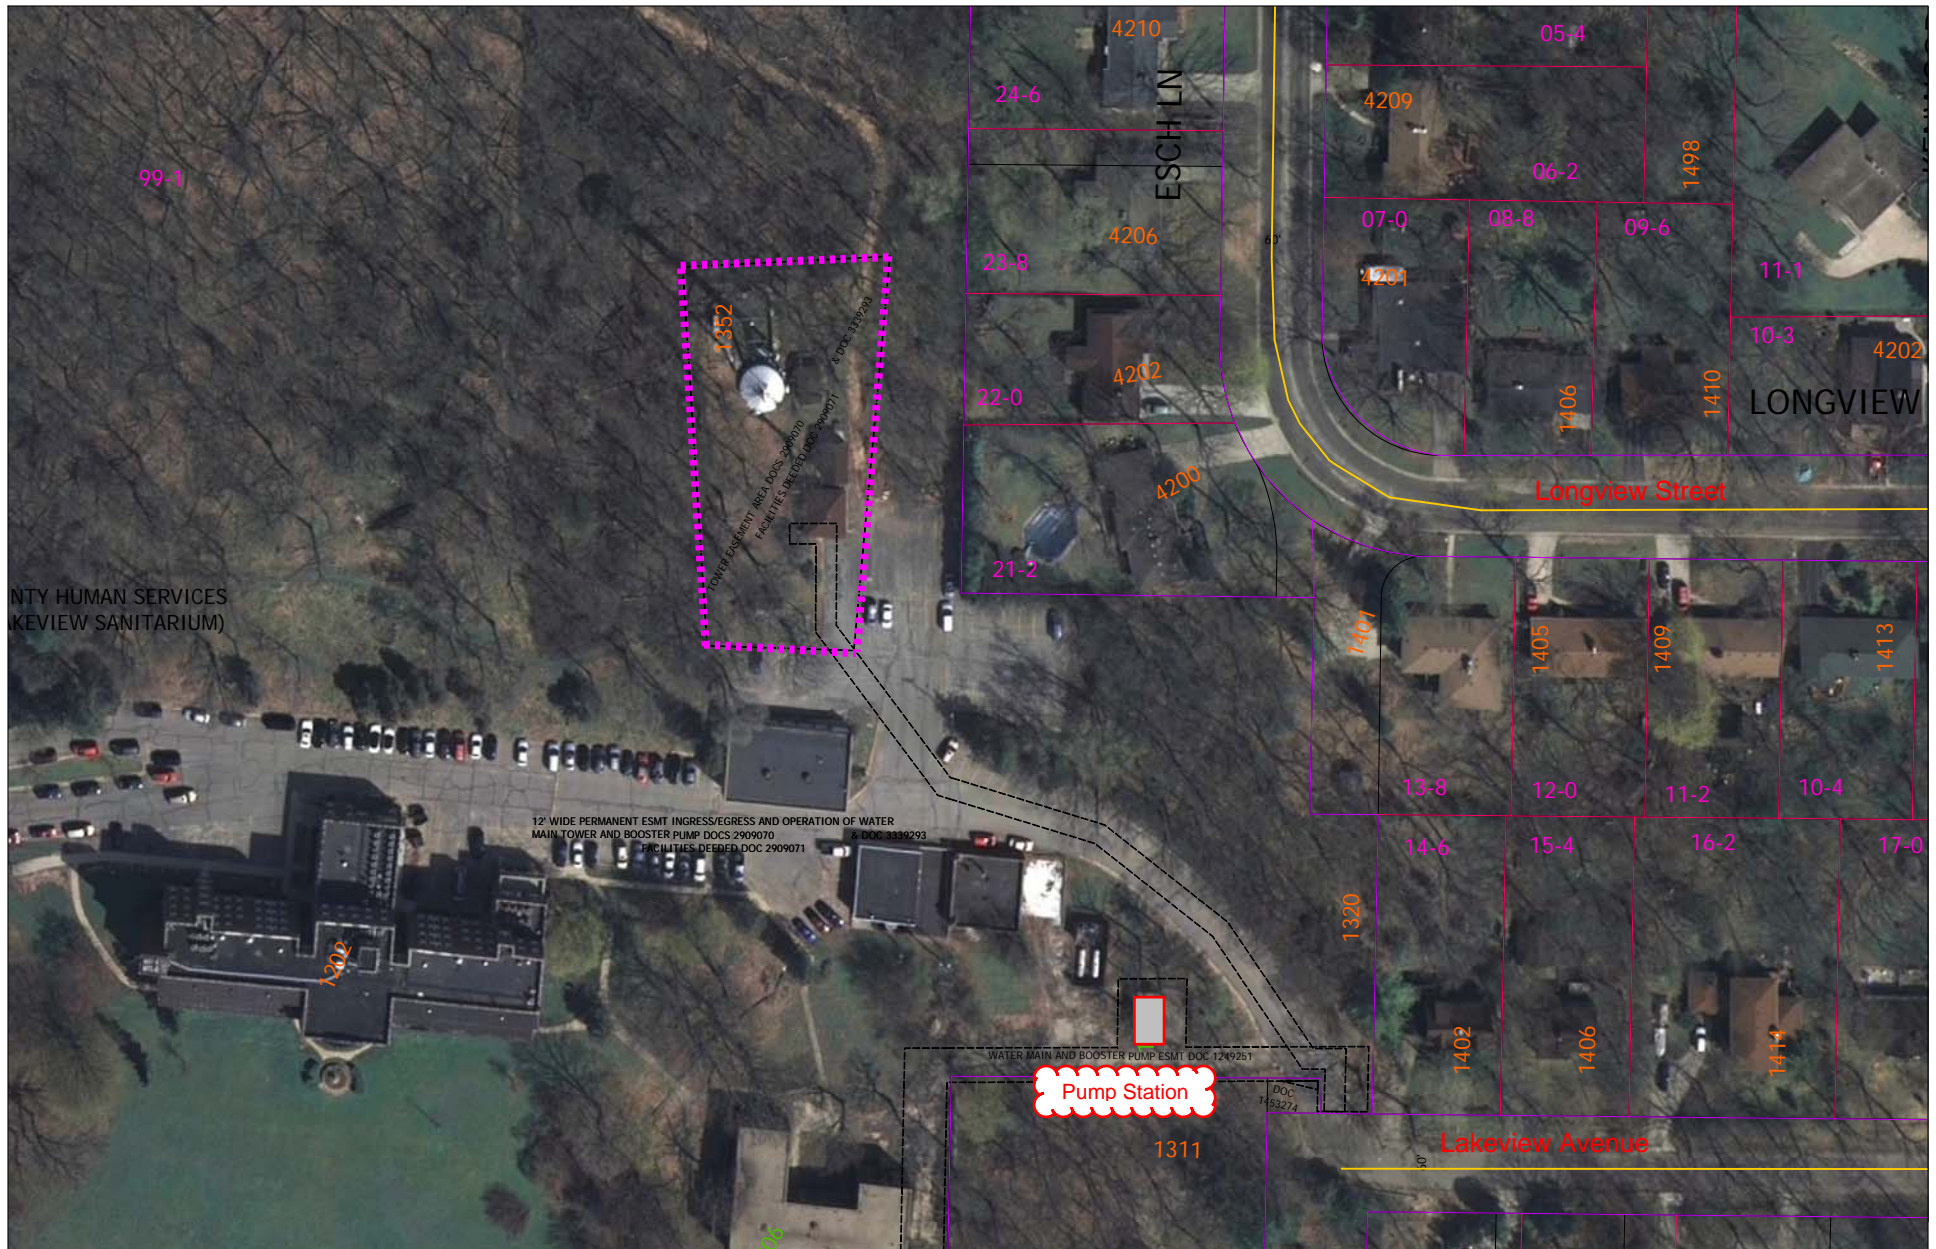

PROJECT NEWS:

At the [8/27/2013 meeting](#) of the Water Utility Board, Water Utility staff made a [recommendation](#) that Short Elliott Hendrickson, Inc. be retained to supply engineering services for the Lake View Reservoir project. The Water Utility Board voted to send the

recommendation to the Common Council for consideration at their [9/3/2013 meeting](#). The Council then [granted approval](#) for awarding the contract to SEH.

PUBLIC PARTICIPATION:

Madison Water Utility would like to invite you to become active in the development of this project through participation on a Citizen's Advisory Panel (CAP). Through this participatory process citizens provide valuable input and feedback helping to produce high quality projects that meet and exceed public expectations. If you would like to participate on the CAP for this project, please contact the Utility at 608-266-4651 or water@madisonwater.org.
