## ADVERTISEMENT TO REQUEST STATEMENTS OF QUALIFICATIONS FOR ENGINEERING DESIGN SERVICES FOR

### WELL 15 - VOC AIR STRIPPER

Madison Water Utility requests statements of qualifications for engineering services for the Utility's Well 15 VOC mitigation project.

**Engineers wishing to be considered for this project must submit 4 copies of their statement of qualifications per the requirements of the detailed Request for Proposal no later than 4:00 p.m., Thursday, December 8<sup>th</sup>, 2011 to:**

**Al Larson, PE, BCEE  
Principal Engineer - Water  
Madison Water Utility  
119 East Olin Avenue  
Madison, Wisconsin 53713**

**Direct questions to:**

**Al Larson @ 608-266-4653  
608-266-4644 (Fax) or email at: [allarson@cityofmadison.com](mailto:allarson@cityofmadison.com)**

A copy of the Request for Proposal can be obtained from the Water Utility at the address noted above or downloaded on the Utility web page <http://www.cityofmadison.com/water/>. The City anticipates evaluating the proposals in December 2011 and awarding the work in January 2012.

Madison Water Utility is proposing to build a low profile air stripper at Well 15 to remove VOC from the water. The objective is to bid the project in the summer of 2012 for construction in the fall, winter and spring of 2012/2013. The treatment system is expected to be fully operational by the summer of 2013.

Design, permitting, and construction services will be considered to be fast track to permit construction to start in the fall of 2011. Services requested will include but not be limited to, final design of the treatment system and associated site work and piping, preparation of bidding documents, assistance during bidding and construction administration services. Selection will be based on overall qualifications and project understanding. The selected Engineer shall enter into a standard City of Madison contract for professional design services.
